

SIMATS ENGINEERING

Saveetha Institute of Medical and Technical Sciences
Chennai- 602105

Student Name: M. Lakshmi Sahithi

Reg. No: 192424280

Course Code: DSA0613

Slot: A

Course Name: Data Handling and Visualization for Data Analytics

Course Faculty: Dr. Kumaragurubaran T & Dr. Senthilvadivu S

Project Title: 3D Geospatial Visualization for Urban and Environmental Data

Module Photographs:

Project Description:

Advanced Visualization and Insight Communication focuses on presenting complex data in a clear and meaningful way using advanced visual techniques and simple explanations. It goes beyond basic charts by using interactive, multidimensional, time-based, and spatial visualizations to reveal patterns, trends, and relationships in large datasets. The module emphasizes not only how to display data but also how to communicate insights effectively through storytelling, annotations, and context so that both technical and non-technical users can easily understand the results. Overall, it helps transform complex data into simple visual stories that support better understanding and informed decision-making. This module is useful in many real-world areas such as business analytics, healthcare, environmental studies, finance, and smart cities. Overall, Advanced Visualization and Insight Communication helps convert complex data into simple visual stories that support clear understanding and effective decision-making.
